

**PUBLIC NOTICE**  
For  
Air Quality Operating Permit  
for Sandoval (County of) - Landfill of Sandoval (County of)

Sandoval (County of) at 2708 Iris RD NE; Rio Rancho, NM 87144 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Sandoval (County of) - Landfill. The owner of this plant is Sandoval County, New Mexico. The exact location of the facility is/will be at latitude 35 deg, 18 min, 7.41 sec and longitude -106 deg, 37 min, 31.4 sec. To aid in locating this facility, the approximate location is located approximately 5 miles W. of Bernalillo in Bernalillo County, New Mexico. This application file has been assigned an Operating Permit Number P243LR1 and TEMPO Agency Interest ID No. 3752.

The plant received an air quality construction permit and is in operation. The main purpose of the plant is to dispose of municipal solid waste (MSW) and wastewater treatment plant sludge; process petroleum contaminated soils; shred logs, stumps, green waste, and woody construction and demolition debris for composting; crush scrap concrete and asphalt debris to produce road basecourse; and shred or crush MSW and other wastes to facilitate compaction in the landfill disposal cell.

This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves renewal of the operating permit and incorporating the terms and conditions of the Sandoval County Landfill Construction Permit NSR41111 into the Title V Operating Permit.

The emissions, as established in NSR Permit 4111, and brought forward into this permit are as follows. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NO<sub>x</sub>) at 8.8 tpy (-XX); Carbon Monoxide (CO) at 1.0 tpy; Volatile Organic Compounds (VOC) at 7.7 tpy ; Total Particulates (TSP), 72.9 tpy; Particulate Matter 10 microns or less (PM<sub>10</sub>) at 19.8 tpy; Particulate Matter 2.5 micron or less (PM<sub>2.5</sub>) 1.7 tpy. The facility is a CO<sub>2</sub>e/minor, < 100,000 tpy CO<sub>2</sub>e, source of green house gas emissions. The Title V permit (243L) being renewed did not have emission limits.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance status.

The NMED has made a preliminary determination that this plant will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 60, 64, 70, 72, 73, 75, and 77and; 40 CFR 50; 40 CFR 60 Subparts A and WWW; 40 CFR 63 Subparts A and CCCCCC; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before May 30, 2012.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P243LR1. Contact the New Mexico Environment Department, Air Quality Bureau, Operating Permit Unit, 1301 Siler Rd, Bldg B, Santa Fe, New Mexico 87507-3113.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, Operating Permits Unit, 1301 Siler, Bldg B, Santa Fe, New Mexico 87507-3113. The Department contact in Santa Fe is William Green at 505-476-4345.
